

# Land For Good's mission is to expand secure farmland access, tenure, and transfer.

Our 20 year impact, improving farmland opportunity by the numbers:

- **Over 9,340 cases** of support and education to farmers, landowners, and service providers.
- **Over 2,770 individuals** received technical assistance to advance their farmland goals.
- **At least 107,264 acres** affected, keeping working farmland available for future generations.

## In their own words...

“We’ve worked with Land For Good on **at least four different critical moments** along the way, over the 27 years that we’ve been here. I’ve been able to invest into building up the farm without owning the land. It’s through the features of our lease that I’ve felt secure in that.

*David Fisher, Natural Roots Farm*

“You made a huge difference for us when **we didn’t know what to do next or where to turn**—because without the right help, we could blow it.

“Land For Good has so many resources that **make our job of helping farmers so much easier.**

We connect, assist, and engage farmers, landowners, service providers, communities, and policymakers to **grow equitable farming opportunity** and sustainably keep land in agriculture.

20  
YEARS

As a member of the **seventh generation** on the farm, I appreciate that Land For Good has made the process of farm transition a lot more approachable. Breaking everything down into relatively small bits and pieces has made a lot of that process a lot easier.

*James Wheeler, Cordelia's Farm*
